Solvent Poster Paper

SOGLPP is a special coated, water-resistant paper for digital printing with solvent and eco-solvent inks.

Matchcode:	SOGLPP
Material:	water-resistant Paper
Finish:	semi glossy
Colour:	white
Weight:	200 g/m ²
Thickness:	220 µm
Opacity	98%
Standard roll width:	30" / 42" / 54" / 60" / 64"
Standard roll length:	30 meters
Fire behaviour:	no

COMPATIBLE INKS:

Eco solvent:	yes	UVC:	yes
Solvent:	yes	Latex:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

Solvent Poster Paper

Description:

SOGLPP is a special coated, water-resistant paper for digital printing with solvent and eco-solvent inks.

The main field of application for this paper is the production of posters and boards for indoor and outdoor applications.

Processing:

The drying time depends on the load of ink. Based on the special coating it is possible to achieve brilliant and intensive colours with reduced ink-quantity. This will save money and reduces the drying time.

For outdoor-applications which have to last more than 10 to 12 weeks lamination is needed. Before lamination the prints have to be dried and fumigated completely otherwise there are risks to get bubbles between media and lamination film.

To avoid fingerprints the use of cotton-gloves is advisable.

Application:

posters and boards for indoor and outdoor applications
